"Herb Holden Trucking, Inc. is a family owned business that prides itself in the quality of its' workmanship, the quality of its' products, and maintaining a higher level of customer service and satisfaction".

Customer Solutions

Whether your construction goals are to extend a driveway or to build an industrial warehouse, Herb Holden Trucking, Inc. has the staff, the material and the experience to get your job completed on time. Our professional estimators and sales representatives are ready to assist you 6 days/week on pricing and material inquiries.

PORTABILITY

Our business has been built on the concept of portable construction. Today, all of our rock crushers, screeners, and other heavy construction equipment are designed to move to our customers. This flexibility allows the company to service customers of all sizes throughout southern New England.

TRANSPORTATION

Herb Holden Trucking, Inc. has a full service fleet of over-the-road construction equipment that transports aggregate materials to and from our facilities throughout the state of CT.

Our fleet of 30+ trucks is available for rent and our drivers have been Hazardous Material trained and certified for working in contaminated work zones. Additionally, our Lowbed service

department has the capability of hauling construction equipment up to 110,000 lbs anywhere east of the Mississippi.

MANUFACTURING

With multiple sites across the state of CT, Herb Holden Trucking, Inc. is a leader in the aggregates industry, supplying southern New England with State Certified Septic Sand, DOT Sand, Screened and Crushed Stone Products, DOT Topsoil, and Fill. Our recycle aggregates business adds additional product offerings that work effectively in road and driveway repair and installation applications.

Service Excellence

SITE-WORK CONSTRUCTION

Our experienced site-construction division has the knowledge and capability to perform all the necessary site-work for large housing subdivisions, roadways, and the development of industrial and commercial properties to meet the needs of your growing business. Our professional staff can manage mass earth excavation, building of roadway infrastructures and the installation of site utilities.
